“WHERE TO FIND GOLD IN OREGON”

IS THE SAME BOOK ENTITLED,
“GOLD PLACER FIELDS ACROSS AMERICA
WITH GOLD OCCURRENCES IN OREGON.”

A FEW PIECES OF NEW INFORMATION HAS BEEN
ADDED TO THIS UPGRADE VERSION. THE TITTLE,
THE COVER DESIGN AND THE LETTERING
HAS BEEN CHANGED. THE HAND DRAWN MAPS
AND THE FACTUAL INFORMATIONAL REMAINS THE SAME.
THANK YOU FOR YOUR PATIENCE AND UNDERSTANDING.
I WISH YOU WELL AND **GOOD LUCK** IN YOUR PURSUIT OF

THE OREGON GOLD.

BRICE CREEK--CHAMPION CREEK

GRIZZLE CREEK--GRASS CREEK;

LANE COUNTY--SHEET NO. FIVE.

TOPO--ROSE HILL--43122/F6--FAIRVIEW PEAK--43122/E6, USGS.

HOLLAND POINT--43122/F5--BEARBONES MTN./E5, USGS.

Use Maps for BLM, County, Umpqua National Forest & USFS land areas.

Parts of BRICE CREEK are open to the public through Mineral Withdrawal Free-Use Sites. Most Forestry campgrounds are Mineral Withdrawal Sites and may be used for gold panning, nugget sniping with a metal detector. The larger Mineral Withdrawal Sites within the Forestry Service have plainly marked boundaries to indicate the Free-Use Sites where dredging, gold panning, sluicing and nugget sniping can be practiced.

BRICE CREEK can be reached by leaving Cottage Grove and driving East past the airport and Doren Lake. Drive along the Row River on the Government Road past Culp Creek to Disston, turn right onto the County road no. 2470 and Forestry road no. 22 which leads to Champion Creek located on Forestry road no. 2470. Grass Creek is past the Champion Creek turnoff on Forestry road no. 2213. ***Be alert to patented claims and private property.***

BRICE CREEK and its tributaries share heavily in the distribution of flood gold particles after each spring-thaw and summer thunderstorms. Easy access; good roads; excellent campgrounds. ***A hard working persistent gold seeker will achieve the GOLD!***

OREGON GEOLOGICAL FACTOID:

THORIUM, (Th), is a grayish-colored radioactive metallic element of the actinide series, which settles in minute amounts in some rare-earth minerals.
